BOBBY, MY PET CHICK.

Bobby is the name of my lame chick. One night when he was about two weeks' old, a rat bit his leg. In about another week his foot came off. about another week his foot came off. He now hops around on one leg. Bobby is very smart and spoiled too. When I leave him he cries until I come and pet him. He stays with his mother until he gets tired or hungry, then hops to the house, and waits until I come and feed him. He is now about five weeks old, and all the other chickens his age are twiced as large. Bobby, I think, is very cute. I wish all of the T. D. C. C. members could see him.

(Age 10 years). MARY'S KINDNESS.

Once a little girl named Mary asked her mother to let her go out in the woods and get some berries. On the way she saw a little bird with its wing broken. She caught the bird and carried it home and bound up its wing. She found a box and put the bird in it, fed and cared for it until it was well.

Thinking that it would like to be free, she took it out and held it in her hand for it to fly. It flew to the top of a tall tree and sang as loud as it could, trying to thank Mary for her kindness.

help, both financial and moral.

You have become a very real factor in the life by your godchild. Because you volunteered to help him when he most desperately needed a friend, he is looking wistfully to you for continued interest. We beg you not to disappoint him.

You have it in your power to make up in some degree, small or large, as you choose, for the brave father who gave his life for France and for all that we love and hold dear.

It has not been found possible to continue the Richmond, Va., committee. From this time on, therefore, no one will appeal directly to you for a continuation of your help. It is entirely your own personal matter whether you drop the child or continue.

LOST IN THE WOODS.

Once upon a time there was a girl named Mary. One day she asked her mother if she could go to the woods and pick flowers. Her mother gave her permission to go. Then Mary started off for the woods. It was getting dark and by that time she had picked a hig bunch of flowers, so she thought she would go home. She walked and walked, but could not find her way out of the woods. Then she sat down and started to cry. Her mother and father got scared and started to look for her. After awhile they heard her crying and found her on the ground. They took her home and after that she never went to the woods again.
